As a general contractor with 43 years of experience, I have worked across the country, building and remodeling 7-Elevens, Circle K's, McDonalds and tons of other major companies. The building trade taught me to work successfully with people of all walks of life, from the CEO to subs, project managers, employees, store managers to the cleaning crews. In addition to the building trade, I've also owned two separate martial arts schools. In 2006 I entered the movie and film industry. I was invited into the Screen Actors Guild-AFTRA for stunts and still continue to work in the industry performing stunts, minor acting, safety and marine coordination. In 2018, I was part of a stunt team nominated for Best Stunts In a Motion Picture.

The constable's job works at the call of the ward 8 JP, serving papers and evictions are the primary jobs associated with the position. I've owned rentals and real estate for many years and have seen all sides of the proverbial coin. Several years ago, a constable helped me recover a track hoe that was stolen off my job site. Thank goodness, as SPD was unable to provide resources to assist with the investigation. At that time I decided if an opportunity ever arose, that I could help others from that position, I would step forward. With my experience as a contractor, coach, member of numerous boards, owner of multiple businesses, I have acquired a wealth of experience that adds significantly to my ability to navigate difficult situations. Past martial arts training, provides a calmness to handle those less than comfortable situations in a friendly manor whenever possible.

In closing, I hope to bring stability to our area and create an environment that my children will one day return to. I feel I can work hand in hand with the Justice of The Peace, and anyone else to facilitate understanding and making our community a better place.

I am asking for your consideration for the position of Ward 8 Constable.
