Caddo Parish Commission

RE: Request for Funding

The Village of Mooringsport has a long-standing history of being a welcoming community with access to Caddo Lake and many tourist attractions. The Village does not see a lot of tax revenue as it is limited in size and population, which brings with it some difficulties while trying to provide the Police services the Village needs.

The Village of Mooringsport Police Department currently has three vehicles. One which needs major repair and is unusable, and another that needs to be replaced. Leaving the Department with one vehicle in good dependability. This letter is to request funds to purchase two used Ford Explorers for use in the Police Department at a cost of \$56,000 and \$10,000 to equip them for Department use.

The vehicles are much needed to fulfill the mission of serving our community and fulfilling the mission of the Department. Thank you for your consideration.

John McCaherty
Chief of Police
