Caddo Parish Commission

RE: Request for Funding

The Town of Oil City is a vibrant community on the banks of Caddo Lake that struggles to fund many needs of our Police Department like many small communities in the region. The Town holds many events throughout the year, which pulls community together, as well as brings many people to our beautiful parish. One of the priorities of our Police Department during these events is to maintain a good police presence and protect our community and guests that visit. The Town requests the Caddo Parish Commission for help in that area.

Oil City currently has an aging Police fleet which consist of no vehicles that can traverse some of our more rural roads, ice, snow, and extreme inclement weather as well as other emergencies where something more durable is needed. The Town request funds be granted for the purchase of a Side by Side and a 4x4 Ford Pickup truck for a total cost of \$81,000 that can assist our department better serve our community in any type of weather, emergency, or event.

John McCaherty
